

HEADING TOWARDS EXCELLENCE

General Industries was established in 2002 in the Kingdom of Saudi Arabia. It is a business sector of Gulf Tyre & Rubber Holding Co. (GTR).

We are the only Company in GCC to offer a “ONE STOP SOLUTION” in Consultancy, Application, Sourcing, Supply, Installation & Maintenance of Conveyor Belting & Bulk Material Handling.

We assure that, GI will be a dependable Industrial Partner to optimize your operations.

General Industries is ISO 9001-2015 certified and has achieved high standards in the Industry for “Rubber lining, Brick lining and Coatings”.

GI Refractory & Insulation Division specializes in the Supply and Installation of high temperature Insulation & Refractory products.

GI has worldwide associations with leading manufacturers and suppliers for an extensive range of products. With this joint effort, customers are assured that they will receive products of premium and world class quality with full manufacturer support.

GI's ability to rapidly respond to customer requirements will always remain our top priority and has been a leading factor towards the success of our company.

Supply.

- Conveyor Belts of all Types
- Vulcanizing Materials & Tools for Conveyor Belts
- Vulcanizing Press
- Air Cannons / Blasters
- Pulleys & Rollers
- Conveyor Monitoring Systems
- Refractory Consumables & Castables

Services

- Annual Contract for Continuous Monitoring & Maintenance of Conveyor Systems
- Conveyor Belt Installation & Services
- Consignment Supply & Maintenance of Pulleys & Rollers
- Rubber Lining Services
- Refractory & Insulation Services

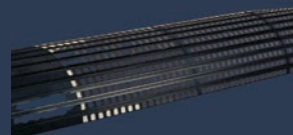

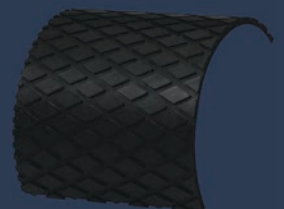

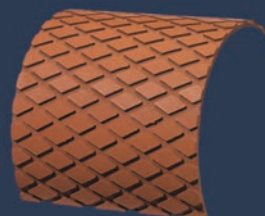

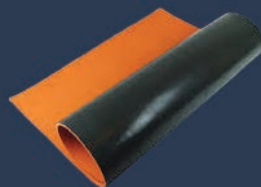

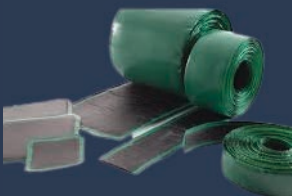

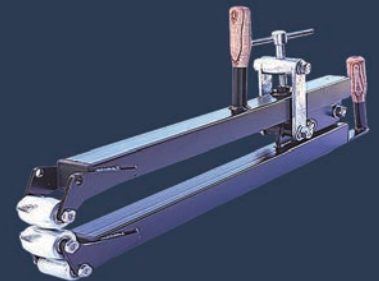

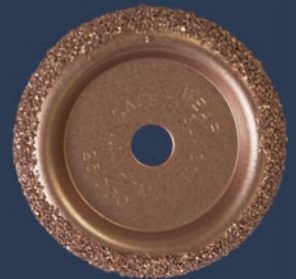

General Industries is capable of providing all types of conveyor belts, according to the client requirements.

- Multi Ply Synthetic Fabric Reinforced Troughed belts.
- Steel Cord Reinforced belts with rip protection.
- Heat Resistant, Fire Retardant & Oil Resistant belts.
- Chevron Belts
- Bucket Elevator Belts.
- Rough Top & Pipe Belts.
- Single ply metallic mesh reinforced troughed belts.
- Side Wall Belt
- PVC Belts

Vulcanizing Materials & Tools

A full range of high quality splicing material, repair material & tool kit including belt stripping machine, skiving machine, special purpose buffing tools and accessories needed to perform any conveyor belt hot & cold vulcanizing.

Vulcanizing Machine

GI proudly represents M/s Shaw Almex (Canada), in Saudi Arabia, the indisputable world leaders in pressing, laminating, vulcanizing equipment solutions and the most advanced conveyor belt repair tools in the industry.

Air Cannons & Blasters

Through proper design & maintenance, bulk material handling operations can run cleanly, safely & efficiently.

Primary & Secondary Scrappers

V-Plow

Air Cannons/Blasters

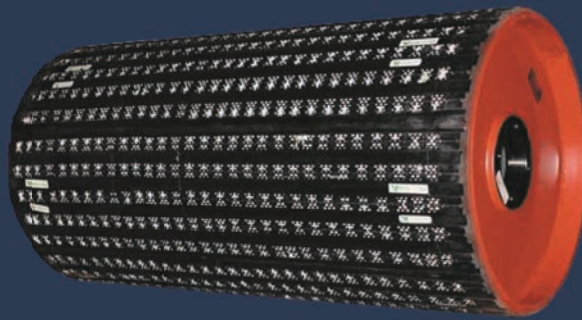

Double sealing ApronSeal /
Skirting

Pulleys & Rollers

General Industries has partnered with the leading manufacturers in the field to provide our customers with specific and proven solution for their varied requirements.

- Head / Tail Pulleys
- Impact Idlers
- Carrying Rollers
- Return Rollers
- Self Aligning Rollers
- Roller Frames

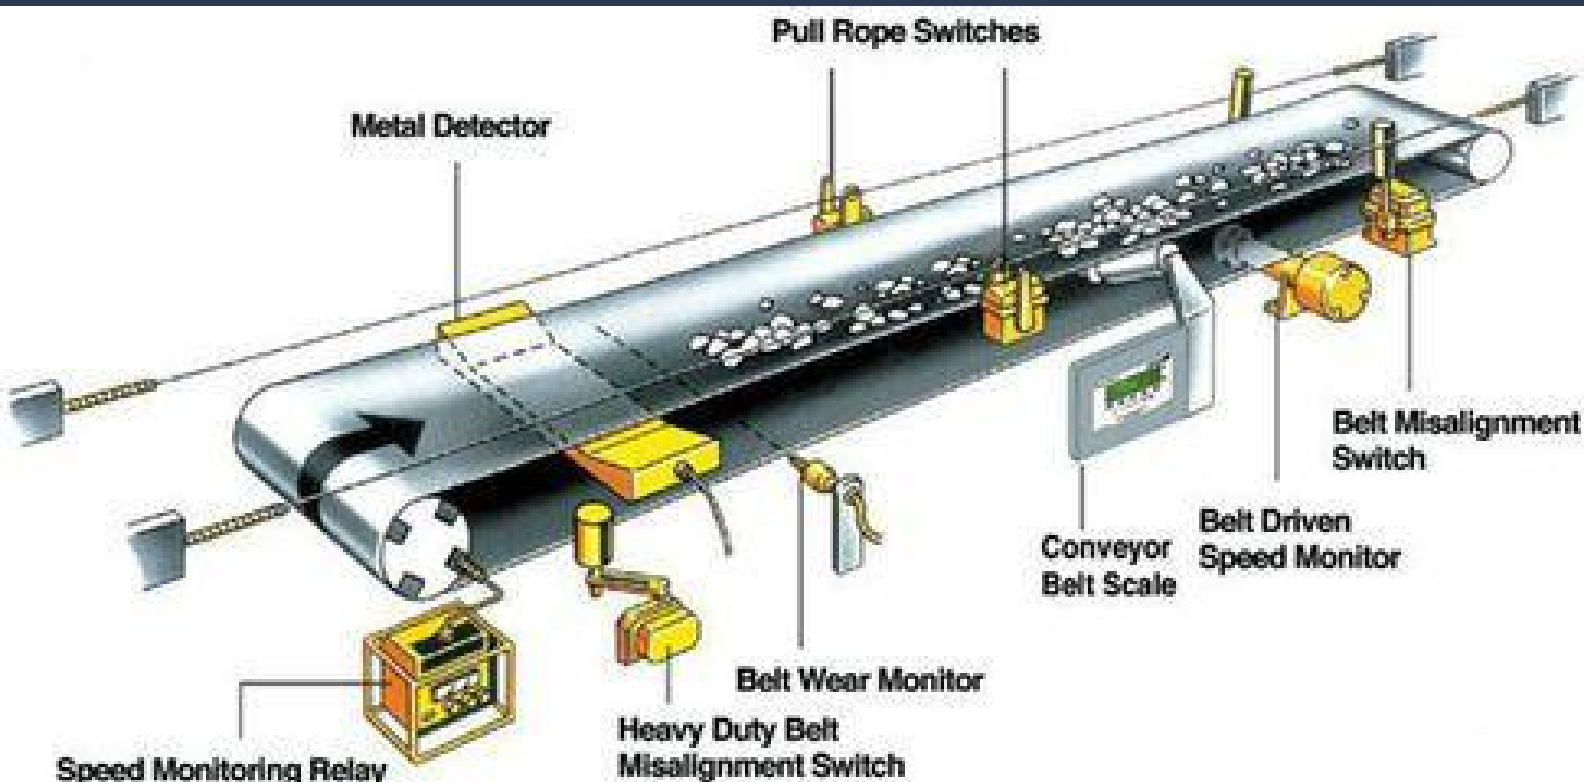

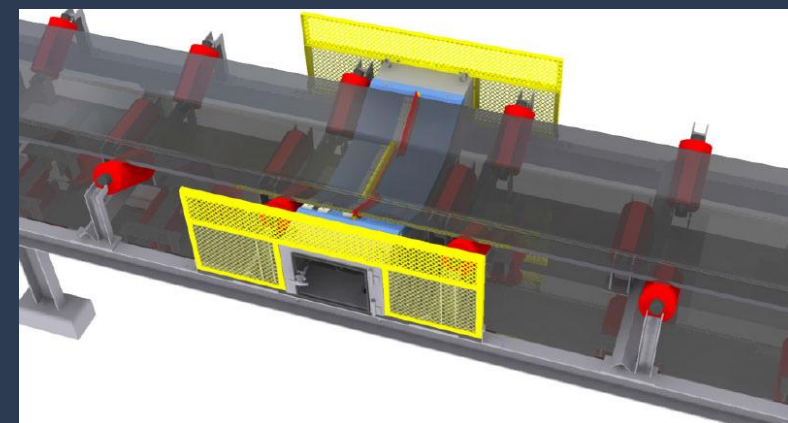

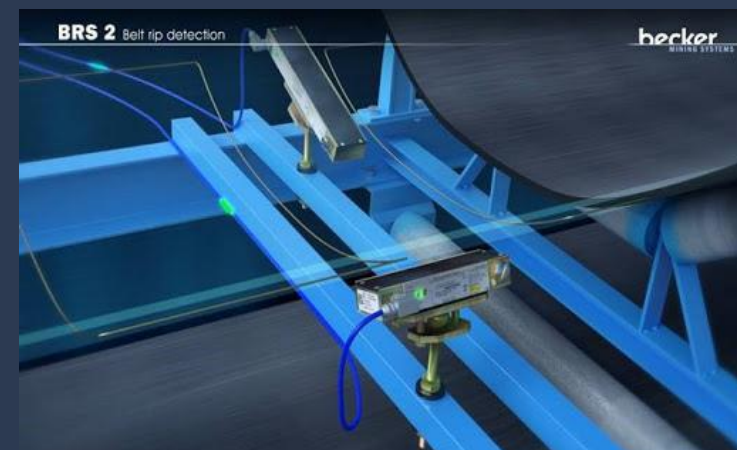

Conveyor Monitoring Systems

Conveyor Belt monitoring system helps you to protect your investment, maximize efficiencies & prevent workflow interruption.

Conveyor Belt Monitoring Systems generate an overall picture of conveyor belt health. Reliable belt monitoring tools can easily be adjusted to accommodate the typical changes that occur over the life of a conveyor belt.

Easy to interpret reports are objectively generated by sophisticated software & sent to

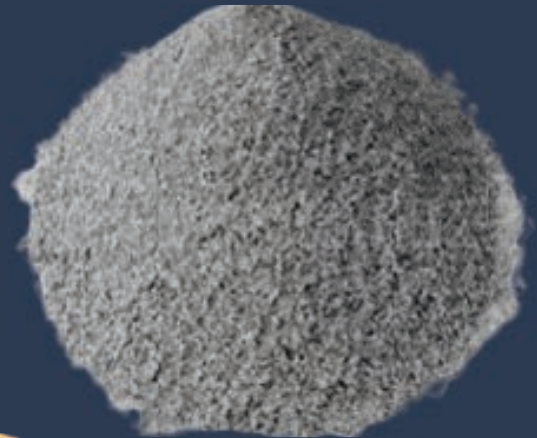

Refractory Consumables & Castables

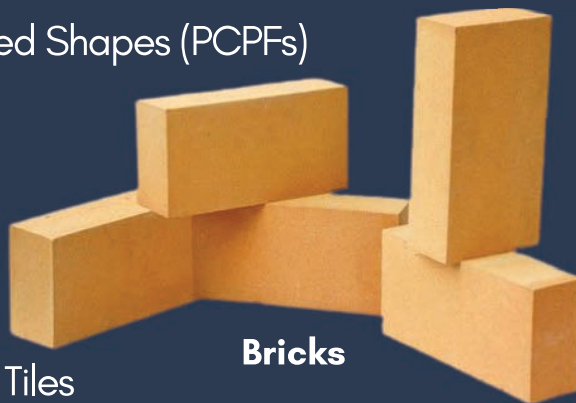

We guarantee to continuously supply products which will meet our customer requirements as well as all established International specifications and standards.

Types of Refractory materials

- Bricks of all grades, Insulation, Medium dense & Dense bricks
- Mortar
- Castables
- Precast and Pre fired Shapes (PCPFs)
- Ceramic Fiber
- Anchors
- Steel Fibers
- Burner blocks
- Antacid Bricks and Tiles

Castables

Bricks

Ceramic Fiber Blanket

Ring Blocks Shapes

Annual Contract for Continuous Monitoring & Maintenance of Conveyor Systems

For most plant managers involved in bulk material handling, the ongoing condition of their conveyor systems is only one of many things they have to focus on. At the same time, it's one of the most critical aspects of operational up-time; as if the conveyor shuts down, the whole operation often comes to a stop.

The experienced engineers and technicians of *General Industries Belt Service Team* have gone through an extensive training on inspecting conveyor systems and assessing their performance towards the goal of maximizing productivity and reducing unscheduled downtime. In fact, it's what they do every single day.

These periodic inspections & pre-planned maintenance on a regular basis, include a thorough review of the entire system, including the belts, cleaners, belt tracking, chutes, dust control and other components. Our technicians take the time to look for issues like carryback, mistracking, fugitive material, airborne dust, flow obstructions and more. And because every conveyor system is different, we customize our inspection plans to your particular equipment and application. After the inspection, we deliver a comprehensive report with photo documentation showing areas of concern, required maintenance and recommended preventive steps. As a result, you can take the actions necessary to improve the conveyor's performance and extend the equipment's service life, or have us take care of it for you.

Installation & Services

Our 24 x 7 on call service team is composed of highly trained technicians who perform Repair, Cold & Hot vulcanization joints at site with specialized tools and equipment's.

General Industries with its extensive experience, offers a structured approach to undertaking all types of turnkey installation & commissioning of conveyor belts.

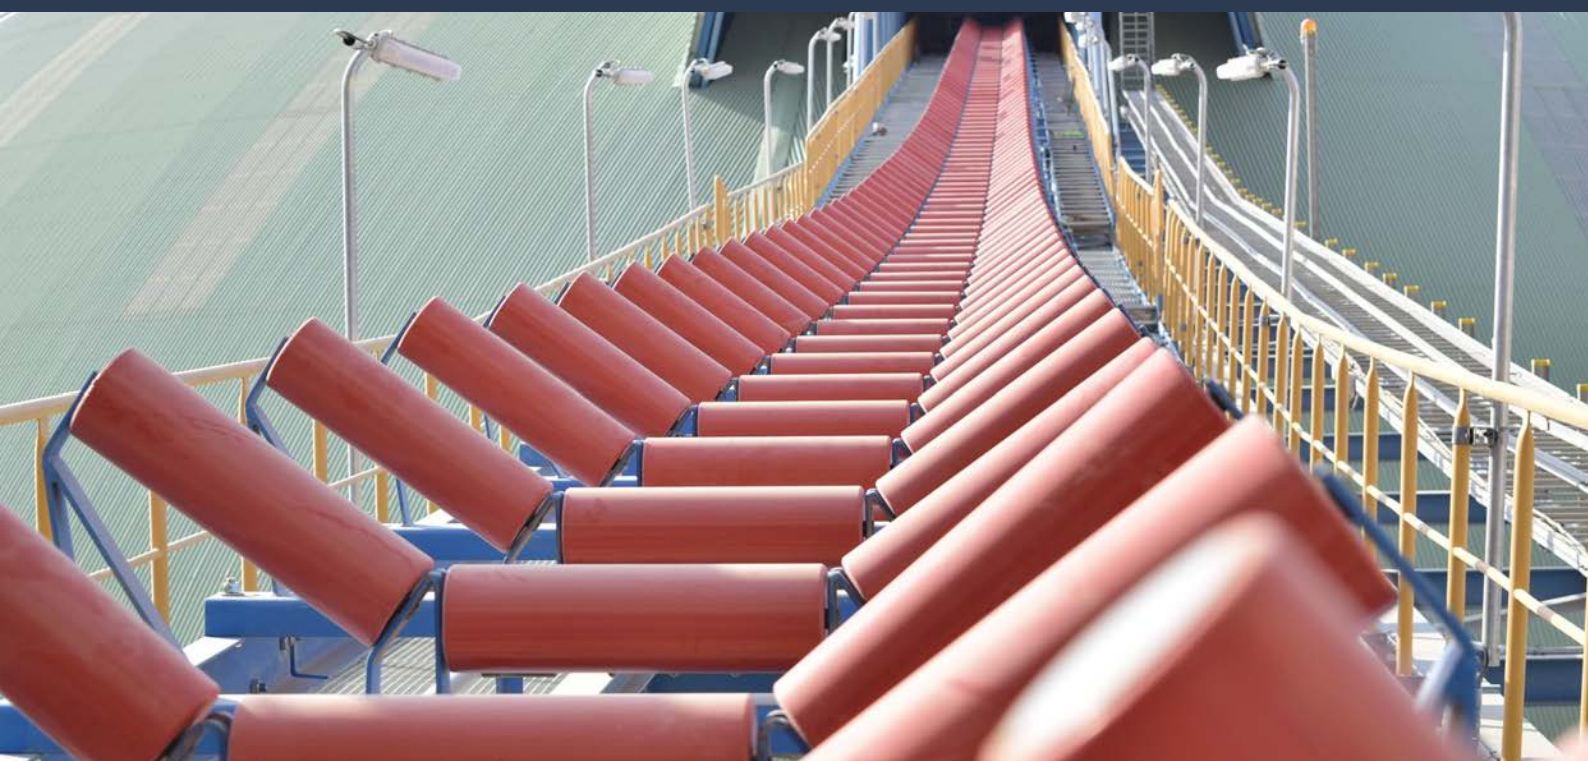

Projects are supported by Dedicated Project Management Teams with depth of experience & equipment to suit the requirement.

Consignment Supply & Maintenance of Pulleys & Rollers

The superior quality of our pulleys/rollers can significantly extend belt life, which helps to reduce the total cost of ownership of your machinery.

- **Supply of premium rollers with warranty**
- **Monitoring & Replacement of rollers**
- **Maintaining Consignment Stock**

General Industry has pioneered the rubber lining of Pipe spools, Scrubbers, Condensers, Hydrochloric acid, Sodium Hypochlorite, Sodium Hydroxide Road Tankers, Demineralization Vessels such as Anion, Cat- ion, mixed bed regeneration vessels, & a host of other critical process equipment which requires protection against corrosion & erosion in the chemical industry.

Refractory Re-Lining

Refractory & high-temperature insulation are some of those services where you should not compromise, you need to employ experts.

GI's Refractory and Insulation division provides you with those specialists, trained to carry out any job.

Refractory Services

- Refractory Materials, Selection, Procurement & Testing.
- Pre-shutdown Inspection and offer Solutions
- Installation of Refractory materials
- Vibration-Casting and Hand packing of Castables
- Installation by "Gunning", "Shotcreting"
- Ramming Plastic and Phosphate bonded materials
- Refractory Bricklaying
- Fire Protection Intumescent and Light weight Concrete
- Insulation Materials Supply and Installation
- All Type of formwork
- Curing and Dry out For Installed Refractory

Facility
15000m²

Located At Jubail

CERTIFICATE

*This is to Certify that the
Quality Management System
of*

GENERAL INDUSTRIES CO. LTD.

P.O Box 11096, Section N, Block 4, Lot 2, Support Industrial Area 3,
Jubail-31961, Kingdom of Saudi Arabia

has been found to comply with

ISO 9001:2015

This certificate is applicable to the following scope:

Manufacture and Trade of Rubber Molded, Calendared and Extruded Products,
Conveyor Belts, Material Handling, Rubber and Polyurethane Products and
Other related Products, Rubber Lining, Corrosion Protection by Coating and
Acid Resistant Brick lining, Insulation & Refractory and Conveyor
Belt Laying and Splicing Services.

Certificate No :: I-QSC202004027

Date of Initial Registration	13, April, 2020
Surveillance Audit on/Before	13, March, 2021
Certificate Expiry	12, April, 2021
Recertification Due	12, April, 2023

Business Values

The business of G&I is based on people's morale.

Why I say this, because our business is completely unique.

When the business is unique the formulations are different & when the formulations are different that means the requirements are demanding & are of highest standards.

What are those highest standards in G&I?

**"The Morale to Achieve Each
Customer's Satisfaction"**
